

Kenzie is a teen hobby photographer who just so happens to have an Autism Spectrum Disorder.

She captured the photos appearing in this calendar while strolling through Elmira's Near Westside Neighborhood Historic District during the months of September and October of 2017.

Each structure offers unique elements of architecture that Kenzie wanted to capture and highlight. When not shooting photos with her Nikon B500, she attends Athens Area High School where she enjoys being creative in her art and pottery classes.
